

Re: LPFM Broadcasters

1. KLOVE is important to our family. We listen whenever we can - at home and in the car. It encourages us with music and programs that teach Godly morals. This is extremely important to us! There aren't enough family friendly programs either on the radio or TV. We enjoy listening to programs that help us be better parents and spouses. My son is just old enough to recognize songs and sing along, and I want him to hear uplifting and encouraging music that backs up what we teach him at home.

2. KLOVE also services our community. KLOVE's 'community calendar' informs us about upcoming events, concerts, and conferences. Our church hosts some of these events and KLOVE helps us get the word out. KLOVE is essential because it can reach so many people. The entire community can benefit from the musicians, speakers, and conferences that come to our area. If KLOVE were to be displaced by a LPFM broadcaster it would be more difficult and costly to advertise upcoming events. Hence, fewer residents would be aware of the positive programs taking place in our community.

3. KLOVE serves God and therefore helps people. The public is exposed to more and more violence, sex, and crime that ever before and we need a positive alternative. KLOVE sends God's message out everywhere. People can hear online or by radio encouraging and uplifting music, and powerful Bible-based messages that give hope. The public can also receive prayer and counseling when needed. KLOVE is all about helping people. Our communities cannot afford to lose KLOVE!

Thank you for your consideration,
Jennifer Tandy
